

Quick Details

Place of Origin: Zhejiang, China (Mainland)

Brand Name: DELIXI

Model Number: CDY1

Name: DELIXI CDY1 Surge Protection...

Maximum disc... 10 20 40 60 80 100 120A

Nominal disc... 5 10 20 30 40 50 60A

Maximum conti... AC275V / AC320V / AC385V / A...

Normal disc... 5kA

Maximum disc... 10kA

Poles: 1P 2P 3P 4P 1P+N 3P+N

Protection level: 1.5kV/1.8kV/2.0kV/2.2kV

Standard: IEC 61643-1 GB18802.1-2002

Model	CDY1-20			CDY1-40			CDY1-60			N-PE
Pole	1P, 1P+N, 2P, 3P, 4P									1P
Normal discharge current In (8/20µs) kA	10			20			30			
Max. discharge current Imax (8/20µs) kA	20			40			60			60
Max. continuous operation voltage (Uc)V	320	385	420	320	385	420	385	420	255	
Protection Level (Up) kV	1.5	1.5	1.8	1.5	1.8	2	2.2	2.2	1.5	
Max. Fuse link A	50			80			125			
Leakage Current (75% Uc mA) µA	<20									
Response time ns	<25									<100
Accessory	Sg, YX, N-PE									

Feature

- Low residual voltage during the same through flow
- Plug-in design with CDY1-20, CDY1-40, CDY1-60, easy to replace; pedestal can recycle, in order to decrease maintenance charge
- Combined type, can achieve different protected type
- self designed after fault indication system has clear alarm indication. it also has communication accessory, light and sound alarm accessory, it is able to achieve these functions.

Description

CDY1-10 and CDY1-20, suitable for installing in front of the distribution box or electric equipment, like front-end of terminal power distribution box, information, electronic, control equipment or latest plugging box

CDY1-10 and CDY1-20, suitable for installing in front of low voltage electric closet in the building, like boxes of floor, computer centre, carrier hotel and lift control room

DELIXI CDY1 Surge Protection Device SPD

1. DELIXI CDY1 Surge Protection Device SPD Specifications:

Lightning Protection Device apply to AC 50HZ/60HZ, 400V and below the TT, IT, TN-S, TN-C-S and other low voltage AC power supply system.

Used for equipotential connection, caused by lightning or surge overvoltage protection, Has the relative phase, in contrast, the relative line, line to ground and its combination protection mode.

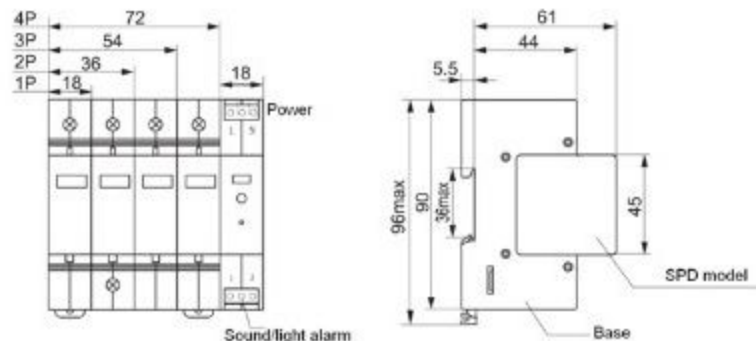

2. DELIXI CDY1 Surge Protection Device SPD Feature

Small volume, light weight, nice design, digital model

Structural model and flexible alteration

The function of the SPD is reliable and stable

Overall and installation dimensions(mm)
