

Model No.REC-50

- Cutting Capacity:
Max. Cable diameter: Nonferrous 50mm

Specifications:

- Height:345 (H)mm
- Weight:2.5 kgs (included battery)
- Drive unit:12V DC Motor
- Charger(GS/CE):
- Input voltage:REC-50-120
- 120V Single Phase AC
- Input voltage:REC-50-230
- 230V Single Phase AC
- Input frequency:50-60 Hz
- Input current:21.75 VA

Benefits:

- Forged blades help ensure consistent cuts and longer blade life
- Battery charge time approx. 1 hour
- Designed for cutting the toughest copper and aluminum cables in a limited space
- A powerful gear reduction motor pulls a moveable blade through the toughest cable
- Built-in circuit breaker for overloading protection

Packaging:

Plastic carrying case
