

## Description of goods :

D121005 is the electromechanical type meter and has reverse indication. It enjoys: high accuracy, high reliability, high stability, low power consumption, preventing creep, light and compact, strong overload capacity.

## Technical parameters :

Voltage :	110V/220V/230V/240V
Max.Current :	100A
Frequency :	50/60Hz
Display mode :	Counter5+1
Constant :	800imp/kWh/1600imp/kWh/3200imp/kWh/6400imp/kWhDirect Mode
Connection mode :	Direct Mode
Standard :	IEC62052-11 , IEC62053-21
Meter Size :	166.5*113.5*48.2mm
