

# CORDLESS THREADING MACHINE CX-8010

## APPLICATION FIELD:

Building hydropower / Home improvement water and electricity  
Telecommunication / Fire monitoring, etc.

- Brushless motor, high efficiency and energy saving
- Four-wheel direct drive strong torque
- Infinitely variable speed, easy cornering
- Single-person work is easy and labor-saving
- Lithium battery threading, one key to bend easily

Rated voltage:	21V DC
----------------	--------

No-load speed:	18000 RPM $\pm$ 5%
----------------	--------------------

<b>Max Pulling Pushing speed:</b>	<b>40 M/Min <math>\pm</math>5%</b>
-----------------------------------	------------------------------------

Max Pulling force:	80KG $\pm$ 10%
--------------------	----------------

Max pushing length:	30M $\pm$ 5%
---------------------	--------------

Rated power:	1050W
--------------	-------

Rated current:	50A
----------------	-----

Auto-pulling stop:	YES
--------------------	-----

Net weight:	4.7kg (bare machine )
-------------	-----------------------
