

## Battery powered cable stripping tool WS1018

Model	WS-1018	Stripping range	50-300mm <sup>2</sup> conductor
Battery	20V/2.0Ah	Weight	1.5kg
Standard Dies	13.2, 14, 14.8, 15.6, 16.4, 17.2, 18, 18.8, 19.6, 20.4, 21.2 22, 22.8, 23.6, 24.4, 25.2, 26, 26.8, 27.6, 28.4		

### Stripping performance display

First of all, thank you very much for using our product. Please read and understand this manual carefully before use.

1. This product is a 20V rechargeable battery power stripping tool. Please avoid humid environments when using or storing it.
2. When stripping the insulation layer of the wire, select a mold of the corresponding size according to the size of the wire. The correct mold will have a complete appearance after stripping and will not damage the wire.
3. When a specific length of insulation needs to be stripped, loosen the screw in the middle and adjust the length as required.
4. When working, it is forbidden to put your hands in front of the motor to avoid unnecessary safety accidents caused by mold rotation.
5. This tool is only suitable for stripping the insulation of the conductor and is prohibited from being used to strip other structures.
